Contributions

Chris Church

Wrote half of part 1 including the instruction parsing, dependency generation with Andrew, topological ordering, and list scheduling

Tested the output and got the running times for Part 2

Wrote the report for Part 2

Andrew Tam

Wrote half of part 1 including the dependency generation with Chris and all of the tie-breaking

Tested the output and got the running times for Part 1

Wrote the report for Part 1

Victor Keyes

Wrote the code for all of Part 2

We offered Victor the code for parsing, scheduling, and dependency graph building, but for some reason he wrote it all again from scratch for part 2.
